

# RTOS MASTERCLASS

**FINAL PROJECT** 

ABDERLRAHMAN ELNAHAS

# 1.System info

TASK	PERODICITY	EXECUTION TIME	DEADLINE
Button 1	200 ms	17us	200 ms
Button 2	200 ms	20 us	200 ms
Periodic Transmitter	100 ms	21 us	100 ms
UART Receiver	100 ms	30 us	100 ms
Load 1	10 ms	5 ms	10 ms
Load 2	100 ms	12 ms	100 ms

### 2.Hyper Period

the time at which all the tasks occur together is 200 ms.

#### 3.CPU Load

# **4.System Schedulability**

#### • Rate Monotonic

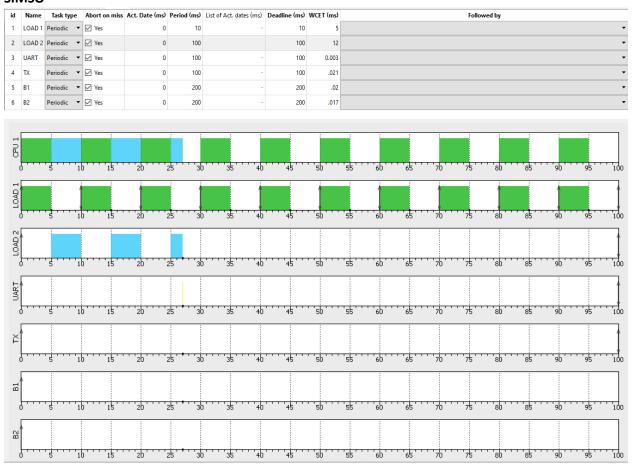

```
U = (17us/200ms) + (20us/200ms) + (21us/100ms) + (30us/100ms) + (5ms/10ms) + (12ms/100ms) U = .62 Urm = 6*(2^{(1/6)}-1) = .734
```

U < Urm **SYSTEM IS SCHEDULABLE.** 

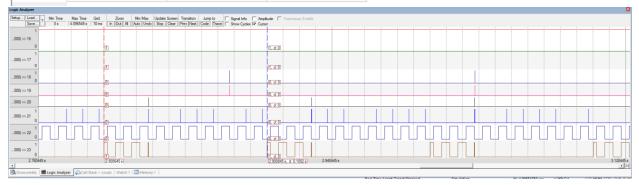

#### • Time demand

Load 1	W(10)=5ms + 0 = 5ms <d< th=""><th><u>SCHEDULABLE</u></th></d<>	<u>SCHEDULABLE</u>
Load 2	W(100)=12ms+(100/10)*5ms	<u>SCHEDULABLE</u>
	= 62 ms < D	
UART RECIVER	W(100)=30us+(100/10)*5ms	<u>SCHEDULABLE</u>
	= 50.03 ms < D	
PERIODIC TRANSMITTER	W(100)=21us + +(100/10)*5ms	<u>SCHEDULABLE</u>
	= 50.021 ms < D	
BUTTON 1	W(200) = 17us+ (100/10)*5ms +	<u>SCHEDULABLE</u>
	(200/100)*30us + (200/100)*21us	
	= 50 ms <d< th=""><th></th></d<>	
BUTTON 2	W(200) = 20us+ (200/10)*5ms +	<u>SCHEDULABLE</u>
	(200/100)*30us + (200/100)*21us	
	+(200/100)*10ms	
	= 112 ms <d< th=""><th></th></d<>	

#### SIMSO

	Total load	Payload	System load
CPU 1	0.6209	0.6209	0.0000
Average	0.6209	0.6209	0.0000

# **Results as expected**
